1. Comment. Similar reports, according to which elements of the 25th
25X1 Tank Division may possibly have been entrained at railroad stations serving
the Templin troop training grounds, have been received. After about
5 October, additional exercises by elements of the 4th Guards Mechanized
Army were probably started in the Rathenow area.
2. Comment. The trains probably carried elements of the 43rd Artillery
25X1 Brigade of the 8th Guards Army returning from the Altengrabow troop training
grounds.
3. Comment. This information brings the number of incoming trains
25X1 carrying recruits to 15 and the number of outgoing trains, possibly carrying
discharged personnel, to five. It appears probable that not all troop
shipments from 19 September to 6 October were covered.
